Investors Newsletter

Dual Monthly Revenue Report

Dear **Investors Newsletter**,

Coaches! 101 A NJ Non-Profit was established in May of 2007, by Omar Dyer. The overall company is still working hard to improve the growth of the company. The company is a tech company that builds within platforms, such as Facebook and other youthful and mid-age consumer ranges. Our major product which is Mad Comedian is now in operation with the direct public offering, and the mutual fund for the company. The company's earnings are listed in the budget scope for the month of December, January and March. Our two basic direct public offerings which have the company raising \$100k for each of the initiatives.

For the My Plan Challenge Foundation Fund, the company was able to add three new investors from the finance world in American Web Loan, Bright Lending Fund, Aspire Credit and Mission Lane Credit. Each of these low to open interest rate loans are organized by our Angel Investor "Omar Dyer," with a growth rate to be determined. Bright Lending was the first payday loan organization to bid on the mutual fund, and through the company's angel investors, the fund lost \$935.17 while gaining a sale on a secured stock of \$650 to be later traded on the market exchange once the fund reaches IPO status.

Accounts that were open with Aspire Credit Card, Mission Lane, American Web Loan, are open ended funds, with balances yet to be determined. And the overall goal of the company is to build a streaming service for the animation of Mad Comedian.

Warm regards,

Omar L Dyer (Legal Representative)
